TIPS FOR OUR VALUED CUSTOMERS

Thank You for your confidence in allowing us to provide for the window needs of your home. To ensure a smooth and trouble-free installation, we ask that you please note, and if applicable, comply with the following:

Before Installation

- Remove all window coverings (blinds, sheers, drapes, etc.). The frame of your new windows may be larger than that of your old window frame and may necessitate a window covering readjustment. The Window Connection is not responsible for any additional cost or hardware that may be required.
- Provide clear access to all windows and surrounding areas (lamps, pictures, knickknacks, furniture, etc.).
- Please make arrangements with your security company to remove security bars from windows and disconnect alarms from old windows.
- If your home is built in 1978 or earlier, Please remove everything from all the rooms that will receive removal and/or installation of windows and doors. See information on LEAD in the Renovate Right: Important Lead Hazard Information for Families, Child Care Providers, and Schools brochure given to you by your salesperson.

Note: Prior to submitting order to factory for production, our field supervisor will require access to your home to verify all window measurements and materials needed to provide a smooth and trouble-free installation.

Please feel free to call with any questions you may have.

Thank You for choosing The Window Connection.
